

# NFP (Not for Profit) Volunteer Photographer

rev 1.50 - jg2019

---

## Guidelines for NFP Events as a Photographer

---

I would report to the (event) Photographic Coordinator always;

I would complete and submit my (event) Volunteer Application;

I would complete and submit the Online Induction if applicable;

I would wear and display my photographic\videographer accreditation always if supplied;

I understand and accept that the accreditation would allow me to enter the area between protection barriers around any performance area for the sole purpose of taking photographs and or videos;

I would agree to comply with the condition of entry to the (event) as well as adhere to the (event) Health and Safety Policy;

I would not at any time enter the area of any performance area whilst a performance is under way or any other restricted area without the express permission of the Event Manager or the Security and Risk Manager;

At all times I would be sensitive to the need of the public's viewing the performance/display, and if instructed to move by a member of the (events) Security and Safety Team, I would do so without hesitation or complaint;

I am conversant with the concepts of image resizing, bulk renaming and image workflow; I understand that I will not watermark any image or video supplied in my Submission to the Event Committee unless it is acceptable to do so;

**I understand that I retain the copyright of all my submitted images and videos** and therefore would grant the Event, authorized representatives, designees or agents license to use the provided images\videos for promotional purposes whether it be in electronic form and\or print form;

The Event, authorized representatives, designees or agents **may not sell an image/s or videos** without the express permission of Jeff Fitzpatrick;

My Submission would contain two copies of every image. Web and Full Size.

---

## Photo Booth

---

I am also able to supply a Photo Booth for NFP Events, which always prove very popular.

A small amount per print would be reclaimed from the Print price to cover the Photo Booth costs.
